Creative Portfolio

Profile

I'm a Sociology student at SUST and a self-taught creator who actually enjoys talking to people. I've grown a social media audience to over half a million views with honest, energetic videos. I've also run my own small business – pitching to investors, negotiating with vendors, and keeping operations smooth. I'm confident on camera, quick to pick up new tools, and ready to bring that same drive to outbound sales: booking discovery calls and recording Loom videos that get conversations started.

Education

- **B.SS in Sociology**, Shahjalal University of Science and Technology (SUST), Sylhet – Expected **June 2026**
- **Higher Secondary Certificate (HSC)**, Viqarunnisa Noon School and College, Dhaka (2020) – GPA **5.00/5.00**
- **Secondary School Certificate (SSC)**, Govt. Model Girls High School, Brahmanbaria (2018) – GPA **4.89/5.00**

Experience

Digital Creator & Content Strategist

- Built a genuine following with bike vlogs, productivity hacks, and AI experiments – top post reached **0.5M views**, average **65K+** on top 10.
- Comfortable on camera and behind the mic. Record and mix audio for indie singers using **Logic Pro, Audacity, OBS Studio**.
- Write regularly on classic lit, socio-historical music pieces, and silly AI workflows – clear, engaging, human.

Student Entrepreneur (Self-funded Venture)

- Ran a small business to cover living costs. Pitched to investors, brought in clients, and handled daily operations.
- Negotiated with multiple vendors and kept supply chains moving – all while studying full time.
- Built a **transparent Notion dashboard** that gave stakeholders live updates on progress, decisions, and next steps.

Freelance Tour Guide – International Guests

- Guided tourists across Dhaka, Sylhet, and Cox's Bazar. Managed last-minute changes, cross-cultural questions, and on-ground logistics.

Key Skills for Outbound Sales

- **Cold calling & pitching:** No formal sales title, but plenty of real reps – investor calls, client cold outreach, vendor negotiations.
- **Camera presence:** Natural on Loom, Zoom, or any video. Personalised outreach feels personal because I mean it.
- **English fluency & aural skill:** Fluent English, comfortable with UK and other global accents (I listen to way too many podcasts).
- **Tools:** Notion (power user), OBS, Logic Pro, Audacity, MS Office. Quick learner with any CRM or AI workflow.

A Few Personal Things

- Motorcycle riding (yes, I vlog it), cycling, hiking – anything with two wheels or a good trail.
- DIY projects, crochet, and being a proud cat mom.
- Always learning: UI/UX, new AI tools, and socio-historical rabbit holes.
