PROFESSIONAL SUMMARY

I'm a digital creator who enjoys time in front of camera. My social media videos (bike vlogs, productivity hacks, DIY, cat life hacks, etc) have hit over half a million peak views. I've also run my own small business and guided international tourists around Bangladesh. I'm now looking to bring that energy and clarity to **WebVortex** as a **LoomVideo Creator**– making personalised outreach videos that feel real and get results.

EDUCATION

B.SS in Sociology
SUST (2020-2026)
GPA 3.35/4.00

Higher Secondary Certificate (HSC)
Viqarunnisa Noon School and College,
Dhaka

RELEVANT SKILLS

- **Camera presence:** Natural, energetic, clear. I know how to hold attention in a short video.
- **English fluency** & accent adaptability: Comfortable with UK and global accents (I listen to too many podcasts).
- **Audio & video tools:** OBSStudio, LogicPro, Audacity, basicvideoediting.
- **Productivity:** Notion, I track everything and keep stakeholders in the loop.

EXPERIENCE

Digital Creator & Content Strategist

- Built a genuine following with video content – top post reached 0.5M views, average **65K+** on top 10.
- Confident on-camera: Loom-style walkthroughs, talking heads, storytelling.
- Comfortable recording personalised messages at scale.
- Record and mix studio audio with **Logic Pro** and use **OBS Studio** for screen captures – clean sound matters for video.
- Video editing with **Final Cut Pro**.

Entrepreneurship & Freelance Works

- Ran a business to cover living costs as a student – pitched to investors, brought in clients, handled operations. Negotiated with vendors, managed supply chains, and kept stakeholders up-dated via a transparent Notion dashboard and Google Sheets.
- Worked as a freelance tour guide for international visitors in Dhaka, Sylhet, and Cox's Bazar – sharpened cross-cultural communication and on-the-fly problem solving.
